

Tokyo's New Urban Development Plan - United Nations

Urban development has significantly changed the landscape of societies. At present, majority of the world's population resides in cities. The case of Tokyo is of interest because it is one of the biggest megacities in the world. Tokyo's urban development sheds light on the successes and challenges urban areas face through the years.

Tokyo Urban Development, Successes & Challenges

Chapter 1 Transition of Tokyo's Urban Planning 1 Transition of Laws and Regulations for Urban Planning After the Great Ginza Fire of 1872, the Meiji Government issued a statement to build a fireproof city and built a Western-style brick quarter in Ginza. This was the first modern urban city building in Japan.

Stages of Urban Development in Tokyo In the case of Tokyo, serious desurbanization did not occur. Instead, Tokyo underwent the second wave of suburbanization in the late 1980s and has entered the stage of reurbanization since the late 1990s (see Table 2). According to this scheme, I will show the urban process in Tokyo from 1955 to the present.
