

credit scoring its applications pdf

A credit score is a numerical expression based on a level analysis of a person's credit files, to represent the creditworthiness of an individual. A credit score is primarily based on a credit report information typically sourced from credit bureaus.. Lenders, such as banks and credit card companies, use credit scores to evaluate the potential risk posed by lending money to consumers and to ...

Credit score - Wikipedia

Drawn from the existing literature, we employ a pooled data of both accepted and rejected applications from different Jordanian commercial banks for the 2006â€“2011 period. 1 The number of observations from each bank was concealed in order to protect the confidentiality of the banks. The data content is composed of 492 cases.

Credit risk assessment model for Jordanian commercial

Credit score in the United States is a number representing the creditworthiness of a person, the likelihood that person will pay his or her debts.. Lenders, such as banks and credit card companies, use credit scores to evaluate the potential risk posed by lending money to consumers. Lenders allege that widespread use of credit scores has made credit more widely available and less expensive for ...
