Environmental Awareness - Naturalist Intelligence Environment is the area in which we live and share. The thin layer of air that surrounds our planet that supports life. Humans are the only kind of life that we know of that exists in our universe. If we did not have our environment we could not exist.

Environmental Awareness - Naturalist Intelligence

American Journal of Environmental Protection (AJEP) aims to be the principal international journal for publication of high quality, original papers in the branches of engineering concerned with the protection of the environment. It facilitates better understanding of environmental risks to humans and ecosystems and it also shows the methods for their analysis as well as trends in the search of ...

American Journal of Environmental Protection :: Science

Environmental health is the branch of public health concerned with all aspects of the natural and built environment affecting human health. Other terms referring to or concerning environmental health are environmental public health, and public health protection/ environmental health protection. Environmental health is focused on the natural and built environments for the benefit of human health ...

Environmental health - Wikipedia

Microbial ecology (or environmental microbiology) is the ecology of microorganisms: their relationship with one another and with their environment. It concerns the three major domains of life—Eukaryota, Archaea, and Bacteria—as well as viruses.. Microorganisms, by their omnipresence, impact the entire biosphere. Microbial life plays a primary role in regulating biogeochemical systems in ...
