For nutrition and its associated disciplines, ethical considerations related to research are often complicated by factors that range from the use of experimental research designs that are overly holistic to inextricable links between nutrition research and marketing.

Nutrition: ethical issues and challenges - ScienceDirect

The widespread use of children in cocoa production is controversial, not only for the concerns about child labor and exploitation, but also because, as of 2015, up to 19,000 children working in CÔte d'Ivoire, the world's biggest producer of cocoa, may have been victims of trafficking or slavery. Attention on this subject has focused on West Africa, which collectively supplies 69% of the world ...

Child labour in cocoa production - Wikipedia

The American Counseling Association Center for Policy, Practice, and Research is responsible for providing access to, and interpretation of, the American Counseling Association Code of Ethics.
