Mathematical goals. This lesson unit is intended to help you assess how well students are able to: Articulate verbally the relationships between variables arising in everyday contexts.

### **Mathematics Assessment Project - [map.mathshell.org](http://map.mathshell.org)**

Mathematics (from Greek *μάθημα* "ma, "knowledge, study, learning") includes the study of such topics as quantity, structure, space, and change.. Mathematicians seek and use patterns to formulate new conjectures; they resolve the truth or falsity of conjectures by mathematical proof. When mathematical structures are good models of real phenomena, then mathematical reasoning can ...

Traditional mathematics (sometimes classical math education) was the predominant method of mathematics education in the United States in the early-to-mid 20th century. This contrasts with non-traditional approaches to math education. Traditional mathematics education has been challenged by several reform movements over the last several decades, notably new math, a now largely abandoned and ...
