I've been interested in science since a young age, and in gaming since I first played D&D (the box with a red dragon on it) in junior high. I occasionally dream of going back to school for an astrophysics degree or becoming a professional RPG writer.

ALIENS. Intelligent races who are not EARTH HUMANS. The term as such is never used for non-intelligent species, however unearthly, though in TECHJARGON these may be called Alien Life Forms. Nor is it used for Earth Humans who must register with the immigration service.
