Yes, it's true that teachers are very often too busy to keep a formal reflective diary and go through every step in the check list. However, the idea behind that is important and we can always reflect on our own teaching, though less formally.

Reflective teaching: Exploring our own classroom practice

A First Course in Linear Algebra is an introductory textbook designed for university sophomores and juniors. Typically such a student will have taken calculus, but this is not a prerequisite. The book begins with systems of linear equations, then covers matrix algebra, before taking up finite-dimensional vector spaces in full generality.
