Appellate jurisdiction is the power of a higher court to review decisions and change outcomes of decisions of lower courts. Most appellate jurisdiction is legislatively created, and may consist of appeals by leave of the appellate court or by right.

Appellate jurisdiction - Wikipedia

When considering cases on appeal, appellate courts generally affirm, reverse, or vacate the decision of a lower court. Some courts maintain a dual function, where they consider both appeals as well as matters of "first instance". For example, the Supreme Court of the United States primarily hears cases on appeal but retains original jurisdiction over a limited range of cases.
