Learn more about your system by seeing which files are open. Knowing which files an application has open, or which application has a particular file open, enables you to make better decisions as a system administrator. For instance, you shouldn't unmount a file system while files on it are open. Using Isof, you can check for open files and stopped processes before unmounting, as needed.

This Bell Curve is, in fact, quite thoroughly debunked. Not the finding that there are racial differences in IQ test scores (this is well known), but the actual thesis of the book, that racial or genetic differences in IQ scores mean that environmental interventions addressed at differentials in adult success are useless.
