Processability theory is a theory and a model of second language acquisition developed by Manfred Pienemann that touches the linguistic structures that surface in the learning of a second language. The theory has been used as a framework by several scientists from Europe and Australia. Processability theory is part of the cognitive approach to second language acquisition that attempts to ...

Human multitasking is an apparent human ability to perform more than one task, or activity, at the same time. An example of multitasking is taking phone calls while typing an email and reading a book. Multitasking can result in time wasted due to human context switching and apparently causing more errors due to insufficient attention. Studies have shown that it is impossible to focus on more ...

Applied Power Electronics Conference (APEC) APEC was created by IEEE in 1986 to help fill the void left by the demise of PowerCon® (1974-1985). It caters to the practical aspects of power electronics and serves as a conference where the working power supply designer can go for a yearly refresher in his/her craft.
