Dr. Bergerâ€™s article outlines the subject of employee/organizational communication, describing its importance and basic internal communication processes, networks and channels.

Employee / Organizational Communications | Institute for

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...
