Application Process to Declare the Major: The major in Biochemistry and Molecular Biology is open to junior- and senior-level students only. Applications to declare the major can be made at any time, but typically in the spring of the sophomore year.

Department of Molecular Biology and Biochemistry

The history of biochemistry can be said to have started with the ancient Greeks who were interested in the composition and processes of life, although biochemistry as a specific scientific discipline has its beginning around the early 19th century. Some argued that the beginning of biochemistry may have been the discovery of the first enzyme, diastase (today called amylase), in 1833 by Anselme ...

Core 2.0 Credit Policies. University Core requirements cannot be satisfied by the CLEP procedure. Advanced Placement credits (AP), if equivalent to MSU Core courses, can be used to fulfill Core requirements.

Core 2.0 General Curricular Requirements < Montana State

1.. Introduction Bacteria associated with plant roots are fundamentally important in plant nutrition, growth promotion, and disease interactions. For this reason, there has been considerable interest in characterizing the structure and function of rhizosphere communities.

Soil and plant specific effects on bacterial community

Biochemistry is the study of life from a chemical perspective and asks how living organisms arose from biomolecules that are lifeless. These biomolecules can be isolated from organisms and examined individually, and they conform to both the chemical and physical laws that govern inanimate matter.
