Media coverage of global warming has had effects on public opinion on climate change, as it mediates the scientific opinion on climate change that the global instrumental temperature record shows increase in recent decades and that the trend is caused mainly by human-induced emissions of greenhouse gases. Almost all scientific bodies of national or international standing agree with this view ...

A toolbox for analysing political texts. Discourse analysis is a useful tool for studying the political meanings that inform written and spoken text. In other posts, I have provided a quick video introduction to the topic, and have discussed the ideas behind discourse theory, the main questions that students and researchers will likely ask as they set up their discourse analysis project, and ...

Temperance movements in Britain developed in a parallel, but significantly different, direction to those in the United States. Although there was a desire to control drinking by legislation, moral suasion was much more central and tended to fall into particular categories of argumentation. The discourses of temperance drew on religion, but developed their own categories, myths, and iconography ...
