### **Refugee health: A new model for delivering primary health care**

refugees fall sick and need health care. The new IFH rules create a complex series of categories, based on immigration status, which each have different levels of access to federally-funded health care. Health professionals, refugee advocates and others expressed grave concern when the changes were first announced.

programmes. The focus of emergency health programmes has shifted to community-based disease prevention, health promotion, nutritional rehabilitation, and epidemic preparedness, surveillance and control. Refugee health has developed into a specialized field of public health with its own particular technical policies, methods, and procedures.
