Most people in the industry will use square footage as their base parameter to discuss the costs and value of a home. But be careful, different industries (and even different people within an industry) calculate these things in different ways.

Cost per Square Foot for Residential Construction

Please note that single family homes, duplexes and all other buildings with an occupant load of ten (10) or less and two thousand (2,000) square feet or less in area are exempt from recertification requirements.
